**Keynote lecture**

- Invited symposia
  - Improved cancer care in older people
    - Chairs: Sirt Rostoft

- Submitted symposia
  - Dissemination and Action to promote Physical Activity (PA)
    - Educational and behavioral aspects to increase PA in clinical practice
    - Chair: Ellen Freiberger and Nico van Meijelanto

- SIG
  - Update in sarcopenia
    - Chairs: Tommy Cederholm and Antonio Cherubini

- Care curriculum
  - Cognition and dementia
    - Chairs: Anne Rita Øksendal and S. Bonin-Guillaume

- Free communication
  - Comorbidity and multimorbidity
  - Introduction state-of-the-art lecture:

- Free communication
  - Delirium and psychiatric illnesses
  - Introduction and state-of-the-art lecture:

---

**15:00-15:30**

- Coffee break

---

**15:30-17:00**

- Keynote lecture

- Invited symposia
  - Individualised care for future Europeans
    - Chairs: Ingrid Saltvedt and David Marshall

- Submitted symposia
  - Technical tools in education

- SIG
  - Successful aging creates new challenges in geriatric cardiology – TAVI as novel treatment in aortic stenosis
    - Chairs: Tone M. Norekvål and Andrea Ungar

- Care curriculum
  - Infections in the oldest old
    - Chairs: Susanne Hennes and Fatima Branz

- Free communication
  - Late breaking news

---

**17:00-18:30**

- Sponsored symposium

- Practical formation:
  - how to write a paper?
    - Corneil Skabar

---

**19:30**

- Congress party at Astrup Fearnley museum
0900-1030 Surgical care for older people - the present and future role of the geriatrician

Cardiac surgery
Daniel Forman

Cancer surgery
Judgeep Dhesis

Orthopaedic surgery
Fredrik Frihagen

Delirium
Chairs: Bjoern Erik Neerland
Delirium and long term cognitive impairment: population insights.
Daniel Davis

CSF studies in delirium - what have we learned so far?
Leif-Ottos Warne

Management of delirium in hip fracture patients (and other geriatric patients)
Giuseppe Bellodi

Palliative and end-of-life care in the nursing home: A comparison between the Netherlands, Canada and United States
Daniel Swärgertty

Palliative care and complex multimorbidity: the need for new paradigms
Cees Herings

Physician performance measure in LTC, to improve medical care in NH
Paul Katz

EUGMS – proceedings of SIG on LTC
Iva Holmrova

1030-1100 Dementia care for future Europeans

Acute functional decline
Chairs: Anste Hylen Ranftth

An international overview of nursing home research: Joint symposium with AMDA Chairs: John Morley and Finnark Martin

Vaccine for seniors - present and future
Chair: Gaetan Gavazzi

Pneumococcal vaccine: What to do after CAPITAI?
Johan Fleming

Flu vaccine in elderly population: What to do after the cochrrane review?
Stefania Maggi

Health care workers: Flu vaccine: What to do after the cochrrane review?
Gaetan Gavazzi

Recent and future vaccine: Zoster vaccine as an example
Jacques Gallot

1100-1200 Risk assessment of the older person at risk functional decline
Malte Casari

Acute functional decline before hospital admission
Renzo Rozzini

Acute functional decline and the stepping point theory
Marcel Olde Rikkert

The IAGG initiative to improve quality of care and research in NH across Europe
John Morley

Developments in the UK and results from the OPTIMAL study
Martin Finberg

Results of the IDEAL study: Interventions of system tracking of dementia cases in NH
Yve Rolland

Data from the SHELTER project on NH in 8 EU countries
Roberto Bernabe

Pharmacodynamic and pharmacokinetic changes in old people
Torgar B Wyller

Prescription appropriateness across Europe
Carmen Sanchez-Castellano

Prescribing CNS drugs for old people: good or bad?
Kasup Falck

Prescription appropriateness across Europe
Carmen Sanchez-Castellano

Prescribing CNS drugs for old people: good or bad?
Kasup Falck

Integrated music in nursing homes – an approach to dementia care
Soren Lau (Denmark)

Monitoring primary health care utilization in order to prevent acute hospitalization of older patients
Anders Fournae (France)

Geriatric nurses and administrative work, from time consuming to sense-making?
Lucie Michel (France)

Surveillance of adverse events in elderly patients: A study on the accuracy of applying natural language processing technique to electronic health record
Christian Ruchelkin (Canada)

1200-1230 Understanding pathophysiology - basis for future treatment
John Hardy

Dementia diagnostics - state of the art in Europe
Jon Snaedal

Treatment of cognitive impairment and dementia in future older Europeans
Lutz Frelch

Risk assessment of the older person at risk functional decline
Malte Casari

Acute functional decline before hospital admission
Renzo Rozzini

Acute functional decline and the stepping point theory
Marcel Olde Rikkert

The IAGG initiative to improve quality of care and research in NH across Europe
John Morley

Developments in the UK and results from the OPTIMAL study
Martin Finberg

Results of the IDEAL study: Interventions of system tracking of dementia cases in NH

2230-2420 Geriatrics in organ disease and Pre-and postoperative care

Geriatric rehabilitation/Organizing of care / Education
Chairs: Abdel Belou and Anna Björg Jónsdóttir

Geriatric teaching in Spanish Medical Schools after the implementation of the European higher education area
Maria Cristina Polidori (Germany)

Learning by Living: Life-Aligning Medical Education Immersion Research
Martian Guccio (USA)

Associations between frailty measured with 6MWD, Fixotrack Index and fall injuries in geriatric patients
Dorthee Rychlik (Sweden)

Therapeutic validity of exercise therapy in RCTS
Heavet van der Luc (Netherlands)

Integrated music in nursing homes – an approach to dementia care
Soren Lau (Denmark)

Monitoring primary health care utilization in order to prevent acute hospitalization of older patients
Anders Fournae (Denmark)

Geriatric nurses and administrative work, from time consuming to sense-making?
Lucie Michel (France)

Surveillance of adverse events in elderly patients: A study on the accuracy of applying natural language processing technique to electronic health record
Christian Ruchelkin (Canada)
### Keynote Lecture
**Organizing acute care models in future Europe**
- **Speaker:** Alfonso Cruz-Jentoft
- **Content:** Integrated geriatric care in acute hospitals
  - Alfonso Cruz-Jentoft
  - Organizing acute care models in future Europe. Innovative models for acute care
  - Simon Conroy
  - Organizing acute geriatric care in different countries across Europe - at present and in the future
  - Tomasz Grodzicki

### Invited Symposium
**Dementia: Biomarkers, genetics and experimental treatment**
- **Chairs:** Nenad Bogdanovic and Mustafa Cankurtaran
- **Program:**
  - The role of imaging in dementia
    - Lars Otte Wahlund
  - CSF biomarkers for Alzheimer’s disease – update on established biomarkers and new developments
    - Kai Blennow
  - Dementia genetics – current status and future potential
    - Ola Andreasen
  - Novel and experimental therapeutics in Alzheimer’s Disease
    - Nenad Bogdanovic

### SIG
**How to write a paper:**
- **EUGMS and Journal editors**
  - Responsible: Jean-Pierre Michel

### SIG
**Palliative care**
- **Chairs:** Néle Van den Noortgate and Sophie Pautex

### SIG
**Geriatric patients with atrial fibrillation**
- **Chairs:** Elisabeth Skaar and Timo Strandberg

### SIG
**Core curriculum**
**Pharmacology/infections and vaccines**
- **Introduction state-of-the-art lecture:**
  - Cognition and dementia
    - Matthieu Tzimiropoulos (Italy)
  - Role of anti-dementia drugs and multidrug resistance in mortality rates in frail multimorbid older patients with dementia: results from the EUGMS AGED study
    - Alberto Plots (France)
  - Methodological factors in determining rates of dementia and cognitive impairment in TIA and stroke: Applicability of short cognitive tests
    - Sarah Pendlebury (UK)
  - Recommendations for non-pharmacological interventions to prevent behavioural disturbances in dementia: results of the EU-FIND trial
    - Charlotte von der Ziel (Netherlands)

### Free Communication
**Care co-ordination at the end of life in severe dementia: the case of pneumonia**
- **Marius Myrstad**

### Free Communication
**Correction of the rhythm disturbance, an option for the elderly patient with atrial fibrillation?**
- **Elisabeth Skaar**

### Free Communication
**Prevention of thromboembolism in the old patients with AF, how to individualize the treatment?**
- **Timo Strandberg**

### Free Communication
**Brain amyloid deposition is associated with lower instrumental activities of daily living performance in older adults: results from the MAPT study.**
- Laura Saarelainen (Finland)

### Free Communication
**CSF biomarkers for Alzheimer’s disease – update on established biomarkers and new developments**
- **Kaj Blennow**

### Free Communication
**Dementia genetics – current status and future potential**
- **Ole Andreassen**

### Free Communication
**Novel and experimental therapeutics in Alzheimer’s Disease**
- **Nenad Bogdanovic**

### Free Communication
**The role of imaging in dementia: the case of pneumonia**
- **Kirsten Moore**

### Free Communication
**The Resident Assessment Instrument for Palliative Care: An added value for the patient, the health care provider of the researcher?**
- **Aline Sevenants**

### Free Communication
**Propositions to promote collaboration and integration between geriatric and palliative medicine/care in Europe: results of focus groups**
- **Sophie Pautex**

### Free Communication
**The epidemiology of atrial fibrillation**
- **Marius Myrstad**

### Free Communication
**Correction of the rhythm disturbance, an option for the elderly patient with atrial fibrillation?**
- **Elisabeth Skaar**

### Free Communication
**Prevention of thromboembolism in the old patients with AF, how to individualize the treatment?**
- **Timo Strandberg**

### Free Communication
