**Plenary Room ATHENA 700 seats**

**Keynotes Lectures**

1. **Physical activity in prevention**
   - Chairs: Yvonne Reilink (France), Jörg Bauer (Germany)
   1. Physical activity in community dwelling older people: which interventions would we consider?
   2. Pharmacogenetics: does it have a role in geriatrics?
   3. Populations-based prevention: dementia as an example

2. **EUGMS Symposium: OPERATING PREVENTIVE SCREENING FOR SARCOPEXIA**
   - Chairs: John Minkey (Ireland), Francesco Landi (Italy)
   1. The value of SARC-F in the screening of sarcopenia
   2. The role of ultrasound in the early assessment of sarcopenia
   3. Exploring muscle mass measurements that predict functional outcomes

3. **EUGMS Symposium: Comprehensive Geriatric Assessment**
   - Chairs: Angelo Bruni (Italy)
   1. The 5-Minute Assessment of Geriatric Function: Predicts post discharge health care outcomes in hospitalized older patients: a international, multicenter, one-year follow-up study
   2. The MPI: AGES European Project
   3. Prevention of Cognitive Decline and Dementia: How to prevent the functional outcomes

4. **How to prevent iatrogenic risk**
   - Chairs: Yves Rolland (France), Jürgen Petermans (Belgium)
   1. How to prevent coronary disease
   2. How to prevent thrombotic diseases
   3. Anticoagulants and bleeding

5. **How to prevent total hip fracture**
   - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
   1. How to prevent osteoporosis
   2. How to prevent fractures in the elderly

6. **How to prevent sarcopenia**
   - Chairs: Marjolein Visser (The Netherlands, Georg Ruppe (Austria)
   1. The value of SARC-F in the screening of sarcopenia
   2. The role of ultrasound in the early assessment of sarcopenia
   3. Exploring muscle mass measurements that predict functional outcomes

7. **How to prevent malnutrition**
   - Chairs: John Morley (USA), Francesco Landi (Italy)
   1. The value of SARC-F in the screening of sarcopenia
   2. The role of ultrasound in the early assessment of sarcopenia
   3. Exploring muscle mass measurements that predict functional outcomes

8. **How to prevent frailty**
   - Chairs: John Morley (USA), Francesco Landi (Italy)
   1. How to prevent frailty

9. **How to prevent falls**
   - Chairs: John Morley (USA), Francesco Landi (Italy)
   1. How to prevent falls

10. **How to prevent delirium**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent delirium

11. **How to prevent general pensioner**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent general pensioner

12. **How to prevent hospital**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent hospital

13. **How to prevent critical outcomes**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent critical outcomes

14. **How to prevent adverse drug reactions**
    - Chairs: John Morley (USA), Francesco Landi (Italy)
    1. How to prevent adverse drug reactions

15. **How to prevent critical outcomes**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent critical outcomes

16. **How to prevent postoperative complications**
    - Chairs: John Morley (USA), Francesco Landi (Italy)
    1. How to prevent postoperative complications

17. **How to prevent rehabilitation**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent rehabilitation

18. **How to prevent functional outcomes**
    - Chairs: John Morley (USA), Francesco Landi (Italy)
    1. How to prevent functional outcomes

19. **How to prevent health care utilization**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent health care utilization

20. **How to prevent mortality**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent mortality

21. **How to prevent quality of life**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent quality of life

22. **How to prevent geriatric**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent geriatric

23. **How to prevent interdisciplinary care**
    - Chairs: Sandrine Andrieu (France), Bruno Vellas (France)
    1. How to prevent interdisciplinary care

**Coffee break**

EUGMS 2017
28/08/2017
3
13:30 – 15:00

**Antioxidants and vitamins: interests in prevention**
*Chairs: Riitta Antikainen (Finland), Eric Boulanger (France)*

1. Vitamins and frailty
   *Tamas Fulop (Canada)*

2. Extracellular matrix aging: are vitamins and redox status involved?
   *Sylvie Ricard-Blum (France)*

3. What does vitamin D prevent in older people? Update on do-healt trial?
   *Heike Bishoff-Ferrari (Switzerland)*

---

13:30 – 15:00

**EUGMS - ESPRM Symposium - PREVENTION FOR PERSONS AGING WITH DISABILITY**
*Chairs: Alain Delarque (France), Jean-Pierre Michel (Switzerland)*

1. Prevention of loss of autonomy for disabled elderly
   *Xanthi Michail (Greece)*

2. Preventing urinary incontinence through pelvic floor rehabilitation of disabled elderly
   *Paolo Di Benedetto (Italy)*

3. Specific recommendations for screenings that should be included into the overall health care plan for individuals with disabilities
   *Katerine Pils (Austria)*

4. Promoting healthy aging among people who already have mobility disabilities
   *Jean-Marie Robine (France)*

---

13:30 – 15:00

**THE 5-COOP STUDY. CROSS-NATIONAL COMPARISON OF HEALTH IN CENTENARIANS - NEW INSIGHTS**
*Chair: Jeune Bernard (Denmark)*

1. Background and Methodology
   *Jean-Marie Robine (France)*

2. Cognitive and Mental Health
   *Francois Herrmann (Switzerland), Dina Zekry (Switzerland)*

3. Morbidity
   *Karen Andersen-Ranberg (Denmark), Bernard Jeune (Denmark)*

4. Frailty
   *Marie Herr (France)*

---

13:30 – 15:00

**Lessons from using the LPZ prevalence measure to benchmark quality of care across three countries**
*Chair: Adam Gordon (United Kingdom), Jos Schols (The Netherlands)*

1. Which pressure ulcer preventive measures are used in Dutch nursing homes? A longitudinal study from 2005-2014.
   *Martin van Leen (The Netherlands)*

2. Structural quality indicators of care problems in Austrian hospitals over a 3-year period
   *Doris Eglseer (Austria)*

3. Can and should the LPZ-i be implemented in the UK?
   *Adam Gordon (United Kingdom)*

---

13:30 – 15:00

**How to prevent recurrent falls?**
*Chair: Finbarr Martin (United Kingdom)*

1. Using new technologies
   *Achille Tchalla (France)*

2. How to prevent fear of falling
   *Kasiukiewicz Agnieszka (Poland)*

3. How to prevent falls with injury
   *Georges Soulis (France)*

---

15:00 – 18:00

**E-Health and active aging**
*Chairs: Jacques Boddaert (France), Iva Holmerova (Czech Republic)*

1. E-Health and active aging
   *Clemens Becker (Germany)*

2. eHealth policy innovation in Europe
   *Mathilde Demory (France)*

3. Combined cognitive-physical interventions using exergames to prevent further cognitive decline in dementia
   *Esther Karssemeijer (The Netherlands)*

---

15:00 – 18:00

**SIG Symposium - Prevention of infectious disease and negative outcome**
*Chairs: Stefania Maggi (Italy), Johan Flamaing (Belgium)*

1. Vaccination for older adults: recommendations from the 2017 EICA-EUGMS Stakeholder meeting
   *Stefania Maggi (Italy)*

2. Prevention of bacterial transmission: what is efficient?
   *Giovanni Gabutti (Italy)*

3. Malnutrition-associated infection: Is there any evidence?
   *Cornel Sieber (Germany)*

4. Functional-decline-associated infection is there a place for prevention?
   *G. Gavazzi (France)*

---

15:00 – 18:00

**What's new in withdrawal of fall-risk-increasing drugs presentation of the EIP AHA A1 Synergy Taskforce on FRID**
*Chair: Tahir Masud (United Kingdom), Hubert Blain (France)*

1. Fall-risk-increasing drugs: a systematic review
   *Lotta Seppälä (The Netherlands)*

2. Pharmacogenetics and drug-related falls and introduction of EIP AHA A2 Synergy taskforce on FRID - group introduction
   *Nathalie van der Velde (The Netherlands)*

3. Medicine use and Alzheimer’s disease (MEDALZ) study
   *Sirpa Hartikainen (Finland)*

4. A quality improvement initiative on the use of psychotropic drugs in nursing homes in Flanders, Belgium
   *Mirko Petrovic (Belgium)*

18:00 – 19:00

**Closing ceremony**

**Highlights of the EUGMS 2017 Congress**
*Jean Baptiste Beuscart (France), Hayana Dallmeier (Germany), Miguel Toscano (Portugal)*
**Oral Communications: Comprehensive geriatric assessment**

**O-009** Geriatric Factors Associated With One Year Mortality After Cardiac Surgery
Anne Sophie Boureau (France)

**O-010** The Combination of Cognitive Function Test Score and Japanese Fall Risk Index Effectively Identifies the Fall-prone Older Inpatients
Saori Harada (Japan)

**O-011** Prognostic impact of frailty domain trajectories on 5-year mortality in very old adults: results from the PARiCAGE cohort study
Nelly Agrinier (France)

**O-012** Goal attainment scaling in a person-centered care setting - are older adults able to attain their goals?
Wanda Rietkerk (The Netherlands)

**O-013** DIALOG task force for definition of a geriatric minimum data set for clinical oncology research.
Elena Paillaud (France)

**O-014** Functional Decline In Older Nursing Home Residents In Europe: The SHELTER Study
Massimiliano Fedecostante (Italy)

**O-015** The GCCM Home Assessment Program: survival analysis of time to institutionalization of an elderly population followed since 2006 in Monaco.
Adeline Morisot (Monaco)

**O-016** Assessment of clinical practices for crushing medication in geriatric units
Duy Nghiem (France)

**Oral Communications: Cognition and dementia**

**O-017** Impact of lipopolysaccharide and benzodiazepine-related drug use among persons with Alzheimer’s disease - an interrupted time series analysis
Natalie Huiskes (Finland)

**O-018** Associated Risk Factors of Rejection Use in Older Adults With Home Care: a cross-sectional study
Vanessa Pietersen (Belgium)

**O-019** The risk of Alzheimer’s disease associated with benzodiazepines and related drugs: A nationwide nested case-control study
Ieva Tapalnien (Finland)

**O-020** 2-hour interactive workshop for family caregivers followed by weekly instruction with postcard for 12 weeks reduced burden of caregivers and improved behavioral psychological symptoms of dementia (BPSD) of care receivers.
Mieko Honda (Japan)

**O-021** Is proton pump inhibitor use associated with an increased risk of Alzheimer’s disease?
Sjoerd Heerkens (Finland)

**O-022** Association between potentially inappropriate medication and Mild cognitive impairment in patients attending memory clinics, Memento cohort
Christelle Mouchoux (France)

**O-023** The Short Physical Performance Battery (SPPB) relates to neuroimaging biomarkers of Alzheimer’s Disease in cognitively normal elderly subjects
Alex Manley (Switzerland)

**O-024** Effect of a program for family caregivers with close relatives in institutions
Anne Sophie Rigaud (France)

**Oral Communications: Frailty and sarcopenia, Geriatric rehabilitation**

**O-025** Tracking Changes in Frailty Throughout Later Life: Results From a 17-year Longitudinal Study in The Netherlands
Emiel Hoogendijk (The Netherlands)

**O-026** Integrated geriatric and primary care management of frail older adults in the community
Laura Monica Perez (Spain)

**O-027** How Clinical Practitioners Assess Frailty In Their Daily Practice: An International Survey
Olivier Bruyère (Belgium)

**O-028** Emergency Department Use in Post-Acute Rehabilitation Facilities
Marie Laurent (France)

**O-029** Comparison of the Performance of Different Screening Methods for Sarcopenia Within the SarcoPhAge Study
Médéa Locquet (Belgium)

**O-030** Factors associated with Activity of Daily Living (ADL) decrease in geriatric rehabilitation unit
Marte Laurent (France)

**Oral Communications: Comorbidity and multimorbidity**

**O-031** Activities Of Daily Living At Admission To Acute Geriatric Wards As Predictor Of Mortality: A Danish Nationwide Population based Cohort Study
Jesper Ryg (Denmark)

**O-032** The impact of the community Transitional Care (TC) program on hospital utilisation, mortality and cost
Miranda Luukku Gitting (Singapore)

**O-033** The Effect of 2 Year Intervention of Diet, Physical Exercise, Cognitive Training and Monitoring of Vascular Risk Versus Control on Chronic Mortality - the FINGER trial Research Group (Ispa)
Sigmundur Jonsson (Iceland)

**O-034** HOMR model accurately predicts 1-year mortality in older hospitalized patients
Dietz Curtin (Ireland)

**O-035** Genetic and cardiovascular risk factors in relation to physical limitation in older adults – a population-based study
Emerald Halland (Sweden)

**O-036** The assessment of functional status and health-related quality of life in elderly patients with peripheral artery disease
Barbara Gryglewska (Poland)

**O-037** What do nursing home patients with mental physical multimorbidity need and who knows best?
Anna van den Bruin (The Netherlands)

**O-038** Health Inequalities During Dementia: A Flanders Wide 3-Year Longitudinal Study Of Diabetes Monitoring And Complications Among Older Adults
Sandrine Andrieu (France)
### EAMA CORE CURRICULUM

#### WORKSHOP 1

**Screening & prevention in older adults in primary care**

(time 60 participants, with voting system)**

- Teacher & 4 EAMA student:
  - Nele Van Den Noortgate (Belgium), Cedric Annweiler (France)

#### INDUSTRY SPONSORED SYMPOSIUM

**L-02 24 minutes lecture**

The role of NGO’s on health promotion and healthy aging

Jane Barratt (USA)

**Oral Communications: Comprehensive geriatric assessment, Psychiatric symptoms and Illnesses**

- O-033 A Home Orthostatic Hypotension among non-demented elderly subjects: prevalence and determinants by self-measured home blood pressure monitoring
  - Oliver Henze (France)
- O-041 Quality of life: clinical characteristics and disability in older community-dwellers without neurological diseases
  - Chentchi Li (Spain)
- O-042 Social Asymmetry and Psychological Outcome: Findings from the Irish Longitudinal Study on Ageing (TILDA)
  - Joanna Múch-Power (Ireland)
- O-043 Risk of head and traumatic brain injuries associated with antidepressant use among community-dwelling persons with Alzheimer’s disease, a nationwide matched cohort study
  - Björn Norberg (Finland)
- O-044 Cancer Related Fatigue (CRF) before oncologic treatments: fatigue related factors and analysis of early death associated to Fatigue Ast-Eld study, a prospective cohort study with 979 elderly cancer patients
  - Rabia Boulahssass (France)

**Oral communications: pharmacology**

- O-045 Differences between drug related problems in aged and middle-aged patients: analysis of pharmacists medication order review during 8 years
  - Francine Gervais (France)
- O-046 Trend analysis: prescription changes during geriatric care episodes
  - Barbro Mattsson (Sweden)
- O-047 Discontinuing Inappropriate Medication In Nursing Home Residents (DIM-NHR STUDY): A Cluster Randomized Controlled Trial
  - Hans Wouters (The Netherlands)
- O-048 Acetyl-L-Carnitine supplementation and the treatment for depressive symptoms: a systematic review and meta-analysis
  - Nicola Veronese (Italy)
- O-049 Concurrent use of alcohol interactive medications and alcohol in older adults: a systematic review of prevalence and associated adverse outcomes
  - Alice Holton (Ireland)

**L-03 24 minutes lecture:**

WHO new integrated care model: clinical interventions to prevent loss of physical and mental capacities

Isleen Alma de Cavanagh (Switzerland)

**Oral Communications: Cognition and dementia, Biogerontology and genetics**

- O-053 Estimating the association of 5HTTLP polymorphism with delusions in Alzheimer’s disease
  - Grazia D’Onofrio (Italy)
- O-054 How Do Community-dwelling Persons With Alzheimer’s Disease Fall? Falls in The FINALEX Study
  - Niko Portillo (Finland)
- O-055 Traumatic enurexia and impact on a dementia process
  - Nicolas Delave (France)
- O-056 Long Term Effects of Prediabetes And Diabetes On Cognitive Trajectories In A Population-Based Cohort
  - Anna Monnigro (Sweden)
- O-057 The association between clinical symptoms of dementia with Lewy bodies and functional image findings using SPECT for dopamine transporter and cerebral blood flow
  - Hans Wouters (The Netherlands)
- O-058 Long-term Exposure To Anticholinergic And Sedative Drugs And Cognitive And Physical Function In Later Life
  - Hans Wouters (The Netherlands)

### EUGMS 2017

**28/08/2017**

#### COFFEE BREAK

#### BREAKING NEWS SESSION

**EAMA CORE CURRICULUM

#### WORKSHOP 2

**Social Isolation: how to improve the care of socially isolated older patient?**

(time 60 participants, with voting system)

- Sylvie Bohm-Guillaume (France), Marie de Saint-Albert (Belgium)
