25 September

	Plenary Room*+1000 (Auditorium Hall)	Room 2/ 600 (Theatre Hall)	Room 3 / 200 (S3) EAMA-EuGMS Core Curriculum	Room 4 / 200 (S3)	Room 5 / (150) (S4)	Room 6 / 70 (S4)	Room 7 / 70 (S4)	Hands-On Room
10:30 13:00			National Symposium (in Polish language)					
13:00 14:30	BREAK							
14:30 16:00	EVIDENCE IN OLDER PATIENTS WITH CHRONIC KIDNEY DISEASE Chairs: Anne Ekdahl, Sweden, Sofia Duque, Portugal 1. Functional and cognitive impairment and adverse health outcomes in older patients with end-stage renal disease Marije Kallenberg, The Netherlands 2. Management of older patients with end-stage renal disease Tomasz Stompór, Poland 3. Application of evidence based medicine clinical practice guidelines in older patients with chronic kidney disease Ionut Nistor, Romania	THE CHALLENGE OF SAFE DRIVING AMONG OLDER PEOPLE Chairs: Eija Lönnroos, Finland, Werner Jung, Germany 1. Driving and dementia: a clinical decision pathway Desmond O'Neill, Ireland 2. Driving after stroke Dorota Religa, Sweden 3. Driving with a heart disease Hermann Klein, Germany	BIOMARKERS - COULD THEY PREDICT THE FUTURE? Chairs: Nicolás Martínez Vellilla, Spain, Thomas Jackson, United Kingdom 1. Biomarkers and sedentary behavior Dhayana Dallmeier, Germany 2. Biomarkers and sarcopenia Riccardo Calvani, Italy 3. Biomarkers and malnutrition Agnieszka Kasiukiewicz, Poland	SIG SYMPOSIUM - SYSTEMATIC REVIEWS AND META-ANALYSES IN OLDER POPULATION Chairs: Jerzy Gasowski, Poland, Gabriel Torbahn, Germany 1. Meta-research in older people: current evidence and the future Nicola Veronese, Italy 2. Systematic reviews and meta-analysis in geriatric medicine: special considerations and tips Susan D Shenkin, United Kingdom 3. Meta-research in nutritional epidemiology in older people: what is new? Lukas Schwingshackl, Germany	FFN-EuGMS JOINT SYMPOSIUM: NUTRITION AND FRAGILITY FRACTURES Chairs: Finbarr Martin, United Kingdom, Jesper Ryg, Denmark 1. Geriatric patients with fracture: role of the orthopaedic surgeon and the geriatrician in optimizing comprehensive assessment and care Karsten Dreinhöfer, Germany, Hubert Blain, France 2. Nutrition and bone health: mechanisms and new therapeutic approaches Anette Hylén Ranhoff, Norway 3. Nutrition and recovery in geriatric fracture patients: what is the evidence? Tommy Cederholm, Sweden	SUBMITTED SYMPOSIUM - GERIATRIC ASSESSMENT AND FOLLOW-UP IN THE CARE TRAJECTORY OF OLDER CANCER PATIENTS Chairs: Cecilie Lund, Denmark, Koshy Alexander, USA 1. Comprehensive Geriatric Assessment and Prehabilitation before cancer surgery Nina Ommundsen, Norway 2. Evolution of muscle mass throughout cancer treatment Stary Perikisas, Belgium 3. Comprehensive Geriatric Assessment & Post-Operative Outcomes in Older Cancer Patients Koshy Alexander, USA	ORAL COMMUNICATIONS 091-10 LONGEVITY AND PREVENTION + VACCINES AND IMMUNIZATION + ORAL AND DENTAL HEALTH Chairs: Andrei Iltisaki, Belarus, Heigi Koik, Estonia O-01 Health behaviours, self-rated health and objectively measured cardiovascular health and physical performance among community-living persons aged 65+ Hanna Maria Riemann, Germany O-02 Predicting falls in nursing homes: accuracy of screening methods in a prospective multicenter cohort study with six months follow-up Ellen Vlaeyen, Belgium O-03 Mettle Bone Mineral Density Change in the Distal Forearm and Subsequent Mortality: Findings from the Population Based Tromsø Study Arnette S. Hagege, Norway O-04 Longitudinal physical activity trajectories and mortality in the Toledo study of healthy Juan Luis Sánchez, Spain O-05 Validation of the Systematic Coronary Risk Evaluation - Older Persons (SCORE-OP) in the EPIC-Norfolk Prospective Population Study Lotte Verweij, Netherlands O-06 Longitudinal Changes in Body Mass Index and the Associations with Cognitive Decline Among Older Adults Hrafnhildur Eymundsdóttir, Iceland O-07 Healthy aging: vaccination in older adults to reduce hospitalization and the burden of non-communicable disease Maja Dobner, Denmark O-08 Pneumococcal meningitis in the old, a 5 year retrospective study in a tertiary hospital Heidi Gruner, Portugal O-09 Oral health in older patients with psychiatric disorders Anastasia Katsara, Greece O-10 Mouthcare on Elderly Care Wards Matters Suzanne Steinhilber-Spanik, United Kingdom	
16:00 17:30	EVIDENCE IN OCTOGENARIANS WITH HEART FAILURE, ARTERIAL HYPERTENSION AND ATRIAL FIBRILLATION Chairs: Tomasz Grodzicki, Poland, Francesco Mattace Raso, The Netherlands 1. Prevalence of geriatric syndromes among patients with and without chronic heart failure Yulia Kotovskaya, Russian Federation 2. A practical approach to the pharmacological treatment of hypertension in older people Chakravathi Rajkumar, United Kingdom 3. A practical approach to the pharmacological treatment of atrial fibrillation in older people Krzysztof Rewiuk, Poland	APPROACH TO POLYPHARMACY IN OLDER PEOPLE WITH MULTIMORBIDITY Chairs: Karolina Piotrowicz, Poland, Graziano Onder, Italy 1. Multimorbidity: definition, assessment, measurement and impact Amaia Calderon Larranaga, Sweden 2. Appropriate pharmacotherapy in older patients with multimorbidity - are there any guidelines? Alessandra Marengoni, Italy 3. A practical approach to polypharmacy in older patients with multimorbidity Mirko Petrovic, Belgium	NON-PHARMACOLOGICAL APPROACH TO... Chairs: Anette Hylén Ranhoff, Norway, Sylvie Bonin Guillaume, France 1. Dementia and behavioural disorders Thomas Jackson, United Kingdom 2. Parkinson's disease dementia and dementia with lewy bodies Frédéric Blanc, France 3. Depression Hana Vankova, Czech Republic	ANTH-INFECTIVE TREATMENT IN OLDER PEOPLE - WHAT IS THE EVIDENCE? Chairs: Gaetan Gavazzi, France, Johan Flamaing, Belgium 1. Shortening of the course of antibiotic treatment Marco Falcone, Italy 2. New antibiotics for older patients Emmanuel Forestier, France 3. HIV: particular aspects in older people Fátima Brañas, Spain	SIG SYMPOSIUM - EDUCATION AND TRAINING FACING DEMANDS FOR LIFE-LONG LEARNING IN GERIATRIC MEDICINE Chairs: Tahir Masud, United Kingdom, Katrin Singler, Germany 1. From medical faculty training to advanced continuous professional education Regina Rolle-Wimsberger, Austria 2. Developing a leadership programme in geriatrics for the future: the EAMA example Nele Van Den Noortgate, Belgium 3. The role of geriatricians in inter-professional education and Training to tackle public health requirements for an ageing society Sanja Thompson, United Kingdom	SUBMITTED SYMPOSIUM - NEW PERSPECTIVES ON GERIATRIC REHABILITATION; SYMPOSIUM OF THE SIG ON GERIATRIC REHABILITATION Chairs: Jos Schols, The Netherlands, Jürgen M. Bauer, Germany 1. What is Geriatric Rehabilitation and how should it be organized? A modified Delphi study aimed at reaching European consensus. Romke van Balen, The Netherlands 2. Nutrition in geriatric rehabilitation – Systematic reviews on nutritional status and nutritional interventions. Julia Wojzschke, Germany 3. Evidence in Geriatric Rehabilitation Ian D Cameron, Australia	ORAL COMMUNICATIONS 011-20 GERIATRICS IN ORGAN DISEASES + DELIRIUM + METABOLISM AND NUTRITION Chairs: Solveig Hennings Pedersen, Denmark, Riitta Antikainen, Finland O-11 Knee Osteoarthritis Outcome Improved by Ultrasound Visualized Injection Compared to Landmark Injection of Hyaluronic Acid Lauris Grenlund, United States O-12 Screening for sleep apnea in very old patients admitted in a hospital cardiogeriatric unit: a pilot study. Agnese Fiorani, Italy O-13 A quality improvement study on delirium awareness day: In pursuit of missed delirium diagnoses Meltem Koca, Turkey O-14 The prevalence of oropharyngeal dysphagia in acute geriatric patients Dore Melgaard, Denmark O-15 A good nutrition and obesity are associated with a reduced mortality in older people living in residential care facilities in Sweden Maria Burman, Sweden O-16 Sex differences in association of protein intake with loss of appendicular lean mass in older adults Harrieka Wijnen, Netherlands O-17 Nutritional status assessment in older patients with cancer: a national cross-sectional Survey (NutriAgeCancer) Johanne Polsson, France O-18 A 20g collagen protein hydrolysate and milk protein blend, stimulates muscle anabolism equivalently to a milk protein blend containing higher quantities of essential amino acids Matthew Brook, United Kingdom O-19 The determinants of iron deficiency: study from the PREDICT cohort Henri Bally, France O-20 Role of a polyphenol-rich dietary pattern in the modulation of Intestinal Permeability and related markers in older subjects Antonio Cherubini, Italy	
17:30 18:00	BREAK							
18:00 19:30	Opening Ceremony Jagiellonian University Choir Introduction Welcome from: Tomasz Grodzicki – President of the 15th EuGMS Congress Finbarr Martin – President of EuGMS Mirko Petrovic – Academic Director of EuGMS Jacek Majchrowski - Mayor of Krakow Opening Lecture: Franz Messerli "Challenges in the older patient: Rift Between Those Who Preach, Those Who Teach, and Those Who Treat." Jagiellonian University Choir Closing							
19:30	Welcome reception							

26 September								
	Plenary Room+1000 (Auditorium Hall)	Room 2/ 600 (Theatre Hall)	Room 3 / 200 (S3) EAMA-EUGMS Core Curriculum	Room 4 / 200 (S3)	Room 5 / (150) (S4)	Room 6 / 70 (S4)	Room 7 / 70 (S4)	Hands-On Room
08:30 10:00	PREHABILITATION AND REHABILITATION IN OLDER PEOPLE Chairs: Wolfgang Kemmler, Germany, Jos Schols, The Netherlands 1. Geriatric rehabilitation: where geriatric medicine meets sports medicine Tomasz Kostka, Poland 2. Prehabilitation for surgery in older patients Sjaak Pouwels, The Netherlands 3. Post stroke neurorehabilitation in older patients Aydan Oral, Turkey	SIG ON DIABETES SYMPOSIUM PRECISION DIABETES CARE FOR COMMUNITY-DWELLING OLDER PEOPLE Chairs: Stefania Maggi, Italy, Mirko Petrovic Belgium 1. The need for individualised diabetes care: a consensus statement Alan James Sinclair, United Kingdom 2. Dynamic modulation of goals through the spectrum of illness Isabelle Bourdel-Marchasson, France 3. Transition from hospital to community – risks and pitfalls Andrej Zeyfang, Germany	HOW TO EFFECTIVELY MANAGE HIGH RISK PATIENTS WITH... Chairs: Karen Andersen-Ranberg, Denmark Matthieu Lillamand, France 1. Osteopenia but still not osteoporosis Evelien Gielen, Belgium 2. Memory complaints but still not dementia Jadwiga Attier-Zmudka, France 3. Weight loss but still not malnutrition Helka Hosa, Finland	GEI (GLOBAL EUROPE INITIATIVE) SESSION MANAGEMENT OF ATRIAL FIBRILLATION ACROSS EUROPE Chairs: Athanas Benetos, France, Andrea Ungar, Italy 1. The European Society of Cardiology Guidelines Stefano Funagalli, Italy 2. The practice in my country Turkey - Gulistan Bahat Poland - Krzysztof Rewuk Greece - George Soulis Russia - Ksenia Eruslanova Serbia - Predrag Erceg The Netherlands - Francesco Mattace Raso	PREVENTION OF MALNUTRITION IN SENIOR SUBJECTS: LATEST RESULTS OF THE PROMSS PROJECT Chairs: Jurgen M. Bauer, Germany, Linda Hengeveld, The Netherlands 1. Protein intake, sarcopenia, frailty and disability in very old adults: findings from the Newcastle 85+ Study Nuno Mendonca, United Kingdom 2. Older adults' acceptance towards dietary and physical activity strategies to prevent protein malnutrition Christine Yung Hung, Belgium 3. Increasing protein intake among community-dwelling older adults with a lower daily protein intake: results of a feasibility study and design of the PROMSS trial Hanneke Wijnhoven, The Netherlands	ORAL COMMUNICATIONS 031-30 COMPREHENSIVE GERIATRIC ASSESSMENT - UNROLLING AND CONTINUENCE MANAGEMENT Chairs: Orlaf Samuelsson, Iceland, Shaun O'Keefe, Ireland O-21 The Effect of Home Visits by Nurses on the Physical and Psychosocial Health of The Elderly: A Systematic Review and Meta-Analysis Ermete Ergin, Turkey O-22 Validity or non-validity? Testing the impact of social robots on older people with dementia Kazuko Oobayashi, Japan O-23 Intensity and feasibility of frailty assessment scales for the elderly in Primary Care: The Frailtiss Project Tania Gueraa, Spain O-24 A snapshot from the older patient's emergency department visit: Association between the Multidimensional Prognostic Index (MPI) and health related quality of life The Netherlands O-25 Orthostatic hypotension and physical performance in older fallers The Netherlands O-26 Impact of a tailored follow-up on Comprehensive Geriatric Assessment offered to older patients with cancer - a randomized controlled study Marianne Shum, Denmark O-27 Health status and its socio-economic covariates of the older population in Poland - assumptions and methods of the nationwide, cross-sectional PolSenior2 survey Hanna Kujawska-Danek, Poland O-28 Implementation of the SELF-MAP in Five European Countries: A Multicenter International Feasibility Study Alessia Piatto, Italy O-29 Applicability of a sensor-based Star-Climb Power Test to identify gait characteristic in stair negotiation Sandra Lee, Germany O-30 Impaired Mobility and Urinary Incontinence in Nursing Home Residents: A Multicenter Study Deborah Elisabeth Jachari, Germany	ORAL COMMUNICATIONS 031-40 CONCOMITANT AND MULTIFACTORIAL ETHICS AND END OF LIFE CARE Chairs: Tsvi Dolevsky, Israel, Eve Rubil, Switzerland O-31 Relationship between blood pressure levels and ischemic stroke, myocardial infarction, and mortality in very elderly Koreans taking antihypertensives: a nationwide population-based cohort study Do-Hoon Kim, Republic of Korea O-32 Body Mass Index At Hospital Admission is Associated With Mortality In Geriatric Patients: A Danish Nationwide Population-based Cohort Study Jensger Rigg, Denmark O-33 Twelve-year clinical trajectories of multimorbidity in older adults: a population-based study Davide Luzzo Verri, Sweden O-34 Predictors of high healthcare costs and cost trajectories in community-dwellers with Alzheimer's disease: Anna-Maja Toipponen, Finland O-35 Men or men? Repeated longitudinal analysis of the relationship between depressed mood and b-LDL dependency in the Longitudinal Urban Cohort Aging Study (LUCAS) from 2007-2017 Dapa Ullrich, Germany O-36 Curative treatment of severe aortic stenosis among 75 years or older patients: a spatial analysis in France Jean-Baptiste Beaucat, France O-37 Biomarker Length and Aortic Valve Calcification Iona Saravava, France O-38 Uncomfortable signs and symptoms of the last 6-month life of institutional residents with advanced dementia Per-Chi Hsieh, Taiwan O-39 The Knowledge and Attitudes of Finnish Geriatric Nurses, General Practitioners and Geriatricians Regarding Tiredness of Life and Euthanasia: A Survey Study Niels Van Den Noortgate, Belgium O-40 Evaluation of the decision-making process that leads to a decision not to re-admit a patient to intensive care Frans Ecmont, France	
10:00 10:30	BREAK							
10:30 12:00	PALLIATIVE CARE IN NON-ONCOLOGICAL DISEASES Chairs: Kaisu Pirkkala, Finland, Sophie Pautex, Switzerland 1. Reality of evidence based practice in palliative care Catherine Evans, United Kingdom 2. Palliative care for people with dementia Lieve Van Den Block, Belgium 3. Palliative care for people with heart failure Piotr Sobanski, Switzerland	EUGMS - IAGG-ER SYMPOSIUM: HEALTHY AGEING/ENGAGEMENT/THIRD UNIVERSITY Chairs: Mario Barbagallo, Italy, Yannis Elkul, Greece 1. Towards a multidimensional healthy ageing phenotype John Mathers, United Kingdom 2. Patients participation: a patient centred approach in clinical practice Dominique van de Velde, Belgium 3. Quality of life from third age university to long term care Katarzyna Szerzbiraska, Poland	FALLS PREVENTION – HOW TO EFFECTIVELY MANAGE... Chairs: Francesco Landi, Italy, Leo Boelaerts, The Netherlands 1. Polypharmacy Wilma Knol, The Netherlands 2. Sarcopenia & physical frailty Gulistan Bahat, Turkey 3. Medical conditions in the Emergency department Katrín Singler, Germany	PROS/CONS SESSION 1 - APPROPRIATE PHARMACOTHERAPY IN OLDER PATIENTS CAPITA SELECTA Chairs: Hana Matejovska-Kubesova , Czech Republic, Maurits Vandewoude, The Netherlands 1. Vitamin Supplementation Pros - Katarzyna Broczek, Poland Cons - Antonia Trichopoulou, Greece 2. Statins: cardiovascular risk reduction or safety in octogenarians? Pros - Jerzy Gasowski, Poland Cons - Andrea Ungar, Italy	SUBMITTED SYMPOSIUM - HOW TO WITHHOLD OR WITHDRAW LIFE SUSTAINING TREATMENT Chairs: Sophie Pautex, Switzerland, Eileen Burns, United Kingdom 1. Conceptual and ethical framework of treatment limitation decisions in older persons Rozaemarijn Van Bruchem-Visser, The Netherlands 2. Perceptions of excessive care in ER and ICU professionals: are they right? Ruth Piers, Belgium 3. Overcoming difficulties in prognostication on frail older people approaching the end of life Rowan Harwood, United Kingdom	ORAL COMMUNICATIONS 041-50 GERIATRIC EDUCATION + GERIATRIC REHABILITATION + ORGANISATION OF CARE AND GEROTECHNOLOGY + PHARMACOLOGY Chairs: Marilene Emmel-Venk, The Netherlands, Mustafa Cankurtaran, Turkey O-41 Knowledge Gaps and Attitudes towards Geriatric Medicine in Europe – Results of a Survey of Junior Doctors and Medical Students in Belgium, Switzerland and The Netherlands: an EAMA Project Chapeau Ibrahim, Belgium O-42 Developing a transdisciplinary education programme in a Perioperative medicine for Older People undergoing Surgery (POPS) service Emily Jaeger, United Kingdom O-43 Capacity assessment in older patients – does education for doctors in training make a difference? Katherine Woodward, United Kingdom O-44 A prospective cohort study on the effects of geriatric rehabilitation following acute exacerbations of COPD Elisavete F. van Dam van Iselt, Netherlands O-45 Pillbox preparation: an essential prior to a good drug administration Sarah Cayeux, France O-46 Relevance of rational projects against ageing Andrei Brindil, Belarus O-47 Reducing psychotropic drug use in nursing homes in Belgium: a feasibility study for the roll-out of a practice improvement initiative Mikro Pennec, Belgium O-48 Asgim and Farmacologic events among patients suffering from severe cognitive impairment: a retrospective cohort study Giulia Baroni, Italy O-49 Temporal changes in the prevalence of cardiovascular drugs use in persons with and without Alzheimer's disease, a retrospective cohort study Hilke W. F. Jansen, Finland O-50 Higher FORTA (FAHOR)-The-Aged) Scores Comprising Over- and Under-treatment Are Associated with Impaired Cognitive and Physical Function Tests Martin Wehling, Germany	ORAL COMMUNICATIONS 041-60 ACUTE CARE + BIOGERONTOLOGY AND GENETICS Chairs: Ivan Gabriel Pradi, Romania, Predrag Erceg, Serbia O-51 Application of the Sepia-3 Consensus Criteria in a geriatric acute care unit: a prospective study Andrea Tonetti, Italy O-52 The Association Between The 'Acute Presenting Older Patient' screener And Clinical Outcomes In Older Patients Acutely Hospitalized For Internal Medicine: Laura Blomand, Netherlands O-53 Factors of Importance for Re-hospitalization and Mortality in the Elderly after an Admission for Pneumonia: a Population-based Cohort Study Lucienne Beardsall, Netherlands O-54 Motivational Factors Mediate the Association of General Self-Efficacy and Performance Outcomes in Older Patients Simone Mergani, Netherlands O-55 European Research Agenda on Geriatric Emergency Medicine Simone Mergani, Netherlands O-56 Blood levels of soluble urokinase plasminogen activator receptor is a potential risk marker useful in risk stratification of geriatric patients Matti Schultze, Denmark O-57 Geriatric Frailty and clinical response to cathepsin-B-inhibitor therapy in blood-stem infections caused by <i>Carpapenemase-producing Klebsiella pneumoniae</i> Simone Dini, Italy O-58 Anemia in older adults admitted through the Acute Medical Unit Narula Kaza, United Kingdom O-59 Effect of a nutritional and physical exercise intervention on changes in body composition and risk of frailty in elderly obese subjects. Marta Serra-Pilat, Spain O-60 Urinary microbes in older women are influenced by host (human) genetics Adeleke Adedayo, United Kingdom	
12:00 13:30	NOT TO BE USED	NOT TO BE USED	NUTRITION LUNCH SESSION WHAT DOES IT TAKE TO BUILD MORE MUSCLE IN THOSE THAT NEED IT MOST Chair: Jean-Yves Register, Switzerland 1. From fracture to recovery Marijn Pooze, The Netherlands 2. A speedy recovery: why exercise is important Jean-Michel Gracies, France 3. The mouth that feeds the muscle: why nutrition is key for recovery Francesco Landi, Italy	NESTLE LUNCH SESSION Addressing the drivers of frailty: Active nutrients for mitochondrial health, bioenergetics, and functionality. Chairs: Jürgen Bauer, Germany 1. Nutritional strategies to compensate for the anabolic resistance of aging Luc J van Loon, The Netherlands 2. Targeting muscle mitochondrial bioenergetics through nutritional synergies in sarcopenia Jerome N Fève, Switzerland 3. Reversing age-related mitochondrial dysfunction, insulin resistance and functional decline: The role of glutathione and a novel nutritional approach Rajagopal V Sekhar, USA	SANOPI PASTEUR LUNCH SESSION PROSPECTS FOR INFLUENZA VACCINATION FOR OLDER ADULTS Chairs: Raul Ortiz De Lejarazu, Spain, Gaetan Gavazzi, France 1. Immunosenescence and influenza vaccines in older adults Raul Ortiz De Lejarazu, Spain 2. Indirect impact of influenza in older populations Gaetan Gavazzi, France 3. Influenza disease burden and flu vaccination outcomes in patients with cardio-vascular disorders Tor Biering-Sorensen, Denmark 4. Efficacy, effectiveness, and safety of influenza vaccination in older adults using a high-dose influenza vaccine Marc Van Ranst, Belgium	EAMA WORKSHOP MEDICAL TEACHING A. What is lacking in the European geriatrics curricula: towards a unified European Geriatric Curriculum Regina Roller-Wirnsberger, Austria, Susanne Hemes, Norway B. Medical education – the best ways to attract students' attention Katrín Singler, Germany, Susanne Hemes, Norway	ORPEA LUNCH SESSION Interdisciplinary & Key Challenges in Long-Term Care Chair: Linda Benattar, International Medical Director, ORPEA 1. Certified Pain-Management in Nursing Homes Nikolaus Steinhoff, Austria 2. Geriatric Rehabilitation Of The Frail Elderly François Berlin-Hugault, ORPEA France 3. Depression In The Elderly: Clinical Symptoms And Pluridisciplinary Management Torsten Mager, Germany 4. Improving Care Quality Through An Interdisciplinary Strategy Of Occupational Risk Prevention Laurence Merlin, ORPEA, France 5. A Multidisciplinary Approach To Eating Disorders In The Elderly Iwona Cabaj-Wiater, ORPEA Polska	
13:30 14:20	Keynote Session 2019 trends in vaccinations of older adults - Jean-Pierre Michel, Switzerland Vaccinations as determinants of healthy aging: moving from medical intervention to health promotion - Stefania Maggi, Italy							
14:20 14:30	BREAK							
14:30 16:00	NON-ALZHEIMER DEMENTIAS Chairs: Anna Kearney-Schwartz, France, Barbara Gryglewska, Poland 1. Frontotemporal dementia Iva Holmerova, Czech Republic 2. Dementia with Lewy Bodies Frédéric Blanc, France 3. Vascular dementia Seth Love, United Kingdom	PROCEDURE-RELATED RISK AND BENEFIT IN OLDER PATIENTS WITH AORTIC AND MITRAL VALVE DISEASE Chairs: Andreas Schoenenberger, Switzerland, Dariusz Dudek, Poland 1. How to assess risk in older patients undergoing aortic and mitral valve interventions - cardiologist's point of view Ota Hlinomaz, Czech Republic 2. Who could benefit the most from transcatheter valve interventions in comparison to cardiac surgery valve operations? Dariusz Dudek, Poland 3. TAVI in the older patient. How to unite geriatrician's and cardiologist's standpoint? Timo Strandberg, Finland	THE HIDDEN THREATS – IN WHOM SHOULD WE CHECK FOR AND TREAT... Chairs: Thomas Munzer, Switzerland Helka Hosa, Finland 1. Orthostatic hypotension Tomasz Grodzicki, Poland 2. Sleep apnea Kiyoka Krugawa - Bourron, France 3. Malnutrition Dolores Sanchez-Rodriguez, Spain	TELEMEDICINE - EVIDENCE AND APPLICATION IN OLDER PEOPLE Chairs: Michael Denking, Germany, Anastasia Kossioni, Greece 1. Use of telemedicine-based care for older people: promises and pitfalls Katarzyna Wieczorowska-Tobis, Poland 2. E-health and Artificial Intelligence in Ischemic Heart Disease. An advanced approach in older people Marco Mazzanti, Italy 3. Telemedicine in rehabilitation: the relevance for older people with stroke Jos Kraal, The Netherlands	EAMA WORKSHOP - WANT TO PUBLISH? MEET THE EDITORS - Where do I publish? The landscape of Geriatric journals Alfonso Cruz-Jentoft, European Geriatric Medicine - Not only original research: what other types of papers may I consider? William Applegate, Journal of the American Geriatrics Society - What will a peer reviewer do with your paper? Rowan Harwood, Age & Ageing - What makes a paper exceptional? Tomasz J. Guzik, Cardiovascular Research - Feedback from participants: what are my major barriers to publish?	SUBMITTED SYMPOSIUM - AGING AND MICROBIOME: THE NEW FRONTIER OF GERIATRIC MEDICINE? Chairs: Corneli Sieber, Switzerland, Helgi Kolik, Estonia 1. Gut microbiome across the lifespan and its relevance for physical performance Andrea Ticinesi, Italy 2. Microbiome, physical frailty and cognitive health Claire J. Steves, United Kingdom 3. Microbiome and infections in the elderly Gaetan Gavazzi, France	ORAL COMMUNICATIONS 061-70 FRAILTY AND SARCOOPENIA Chairs: Gregor Verinsek, Slovenia, Gianpaolo Ceda, Italy O-61 Muscle quality & successful aging: a question of physical activity habits? Bernard Fougère, France O-62 Improvement of ADL and cognitive function and in the patients over 85 years old with idiopathic normal pressure hydrocephalus treated by ventriculostomy shunt Kazuyoshi Kato, Japan O-63 Sarcopenia and health outcomes: an umbrella review of observational studies Nicola Veronesi, Italy O-64 The association of Bioelectrical Impedance Analysis (BIA)-derived phase angle with sarcopenia in non-frail community-dwelling older adults Justin Chew, Singapore O-65 Agreement and predictive value of the EWGSOP2 and FNIH sarcopenia definitions in older hospitalized patients. The GLUSTEN Study Stefano Volpato, Italy O-66 Safety and efficacy of tiragumab in community-dwelling older adults with sarcopenia Daniel Rooks, United States O-67 The Multidimensional Prognostic Index obtained at discharge predicts unplanned readmissions – a prognostic study: Nanna Gregersen, Denmark O-68 The Lorraine Frailty Profiling Screening Scale (LoFProSS) as an easy tool able to identify frailty profiles in various populations. Mona Kibazi, France O-69 Frailty index in community-dwelling population and its relation to hypertension and blood pressure level - the results from the PolSenior study Barbara Wlarczyk, Poland O-70 Evaluation of Safety and Efficacy of BIO101, a Mes Receptor Activating Drug for Sarcopenia: A Double-Blind, Placebo Controlled, Randomized Clinical Trial Amy Chen, United States	
16:00 17:30	NOT TO BE USED	NOT TO BE USED	SPONSORED SESSION	SPONSORED SYMPOSIUM - ONTEX Improving the care of older people with urinary incontinence: from the clinical practice Chairs: Carlos Verdejo-Bravo, Spain, Antoine Vella, Malta 1. The state of the art on the pharmacologic treatment in older people Piotr Radziszewski, Poland 2. The role of the behavioural and rehabilitation techniques in the treatment of UI in the older Jessie De Cock, Belgium 3. A practical approach on the management of the UI in the patients with cognitive impairment/dementia Eva Topinkova, Czech Republic	SPONSORED SYMPOSIUM - VIV HEALTHCARE MANAGEMENT OF OLDER PEOPLE LIVING WITH HIV Chairs: Alan Winston, United Kingdom 1. Welcome and introduction Alan Winston, United Kingdom 2. My journey Ben Collins, United Kingdom 3. Changing demographics and Comorbidities of people ageing with HIV Eugenia Negro, Spain 4. Clustering of comorbidities with Ageing and HIV Alan Winston, United Kingdom 5. Impact of HIV on the functional and cognitive capacity in an elderly patient Tom Levett, United Kingdom 6. Questions and Cases Alan Winston, United Kingdom	SPRINTT: moving toward function-centred geriatric medicine Chairs: Emanuele Marzetti, Italy, Ronenn Roubenoff, USA 1. The function vs. multimorbidity dilemma in contemporary geriatric medicine Timo Strandberg, Finland 2. Physical frailty & sarcopenia as a prototypic condition of new-generation geriatric medicine Francesco Landi, Italy 3. Recruitment and baseline characteristics of SPRINTT eligible screenees Riccardo Calvani, Italy	SPONSORED SESSION	EAMA WORKSHOP EBM- how to critically interpret medical data Małgorzata Bala, Poland Młoszc Jankowski, Poland

27 September

	Plenary Room+1000 (Auditorium Hall)	Room 2/ 600 (Theatre Hall)	Room 3 / 200 (S3) EAMA-EUGMS Core Curriculum	Room 4 / 200 (S3)	Room 5 / (150) (S4)	Room 6 / 70 (S4)	Room 7 / 70 (S4)	Hands-On Room
08:30 10:00	NUTRITIONAL TREATMENT OF OLDER PERSONS Chairs: Cornel Sieber, Switzerland, Jurgen Bauer, Germany 1. Nutritional treatment of malnutrition Dorothee Volkert, Germany 2. Nutritional treatment of sarcopenia Sian Robinson, United Kingdom 3. Nutritional treatment of obesity Marjolijn Visser, The Netherlands	NEURO-PSYCHO-PHARMACOLOGY: STATE OF THE ART Chairs: Sylvie Bonin-Guillaume, France, Alfonso Cruz Jenot, Spain 1. Pharmacotherapy of depression Marcin Siewek, Poland 2. Pharmacotherapy of fluctuations in Parkinson's disease Luc Deleuvre, France 3. Pharmacotherapy of neuropsychiatric symptoms of Alzheimer's disease Antonio Cherubini, Italy	"GET WELL SOON" – HOSPITAL ACQUIRED COMPLICATIONS Chairs: Regina Roller-Wirnsberger, Austria, George Soules, Greece 1. 'Hospital-acquired' functional decline Nicolás Martínez-Veilla, Spain 2. 'Hospital-acquired' cognitive decline Hanna-Maria Rottio, Finland 3. 'Hospital-acquired' malnutrition Stanislaw Klek, Poland	PROS/CONS SESSION 2 - CANCER SCREENING Chairs: Jerzy Chudek, Poland, Adalsteinn Gudmundsson, Iceland Lung cancer: Pros - Kristiaan Nackaerts, Belgium Cons - Federico Venuta, Italy Prostate cancer: Pros - Lonne Vanderbos, The Netherlands Cons - Jerzy Chudek, Poland	JOINT SYMPOSIUM - UPDATE OF THE IOF-ESCEO GUIDELINES FOR THE DIAGNOSIS AND MANAGEMENT OF OSTEOPOROSIS Chairs: Jean-Yves Regnier, Belgium, Radmila Matijevic, Serbia 1. Diagnosis of osteoporosis and assessment of fracture risk John Kanis, United Kingdom 2. Pharmacological treatment of osteoporosis René Rizzoli, Switzerland 3. Economic evidence supporting the implementation of Fracture Liaison Services Kassim Javaid, United Kingdom	SUBMITTED SYMPOSIUM - EUGMS T&F GROUP ON FALL-RISK-INCREASING DRUGS: A NOVEL EUROPEAN FRID-LIST AND WITHDRAWAL AID TO OPTIMIZE FALLS & FRACTURE PREVENTION Chair: Nathalie van der Velde, The Netherlands Sirpa Hartikainen, Finland 1. Fall-related injuries and drug-induced osteoporosis Jesper Ryt, Denmark 2. Drug-related Risk Reduction of In-hospital Falls Through Collaborative Work of Clinical Pharmacists with Hospital Physicians. The South Bohemia Region Study Eva Topinkova, Czech Republic 3. European Fall-risk-increasing Drugs list using Delphi Method Lotta Seppälä, The Netherlands	SUBMITTED SYMPOSIUM - ARTERIAL STIFFNESS AND AGE-RELATED NON CARDIOVASCULAR DISEASES Chair: Francesco Mattace Raso, The Netherlands, Timo Strandberg, Finland 1. Arterial stiffness and cognitive disorders Chakravarthi Rajkumar, United Kingdom 2. Arterial stiffness at the interface of bones and muscles Francesco Mattace Raso, The Netherlands 3. Arterial stiffness functional decline and loss of autonomy Athanasios Benetos, France	EAMA WORKSHOP ULTRASOUND ASSESSMENT OF MUSCLE MASS AND QUALITY Stary Perkasas, Belgium
10:00 10:30	BREAK GSK FLASH TALK : "Preventive measures in older patients. Are we neglecting crucial tools?" Tahir Masud (UK)							
10:30 12:00	COMPREHENSIVE GERIATRIC ASSESSMENT (CGA) IN CLINICAL PRACTICE Chairs: Maurits Vandewoude, The Netherlands, Eva Topinkova, Czech Republic 1. Learning and teaching CGA Maria Cristina Poldori, Germany 2. CGA and appropriate drug prescription in older people Arduino Mangoni, Australia 3. Anticoagulants in older frail patients with atrial fibrillation: update of the EUROSAP Project Alberto Pilotto, Italy	MOLECULAR ASPECTS OF AGEING Chairs: Olafur Samuelsson, Iceland, Avan Ahie Sayer, United Kingdom 1. Telomeres and ageing Athanasios Benetos, France 2. Collagen and ageing Helen Birch, United Kingdom 3. Glycation and ageing Joris Delanghe, Belgium	HOW IS IT FEASIBLE TO EMPLOY HIGH-TECH EQUIPMENT FOR PATIENTS WITH... Chairs: Michael Denking, Germany, Evelien Gielen, Belgium 1. Major neurocognitive disorder Matthieu Lillmand, France 2. Falls and physical disability George Soules, Greece 3. Multimorbidity Samuel Perivier, Switzerland	SIG ON DELIRIUM SYMPOSIUM - THE DELIRIUM SYNDROME: MUCH STILL REMAINS TO BE CLARIFIED Chairs: Giuseppe Bellelli, Italy, Koen Milisen, Belgium 1. The phenotypes of delirium: a look into the psychomotor subtypes of delirium David Meagher, Ireland 2. Delirium cultural gap existing in applying prevention protocols and treatment guidelines in clinical practice Dimitrios Adamis, Greece 3. Interrelationship between delirium and dementia: what's new? Alessandro Morandi, Italy	SUBMITTED SYMPOSIUM - EXPLORING PRESCRIBING CASCADES AMONG OLDER WOMEN AND MEN IN THREE KEY SETTINGS OF CARE (COMMUNITY, HOSPITAL AND NURSING HOMES): A TRANSNATIONAL INITIATIVE ON DRUG SAFETY Chairs: Paula Rochon, Canada, Antonio Cherubini, Italy Paula Rochon, Canada 1. Exploring a common prescribing cascade in the community: Calcium channel blockers, enema, and diuretics 2. Exploring prescribing cascades in hospitalized older adults: data from the SENATOR trial Mirko Petrovic, Belgium 3. Exploring Prescribing Cascades in the Nursing Home: Antipsychotics, parkinsonism and antiparkinsonism treatment Graziano Onder, Italy	ORAL COMMUNICATIONS 01-40 COGNITION AND DEMENTIA + PSYCHIATRIC SYMPTOMS AND ILLNESSES Chairs: Peter Johnsson, Sweden, Rebecca Dresher-Bruggmann, Switzerland O-71 Risk of death in relation to antiepileptic drug use among community-dwelling persons with Alzheimer's disease: a matched cohort study: Tatyana Saryshva, Finland O-72 The risk of head injuries and traumatic brain injuries associated with antipsychotic use among community-dwellers with Alzheimer's disease Veera Tapainen, Finland O-73 Why is there a decline in the incidence of sporadic Creutzfeldt-Jakob Disease in the older adult population? Jere Luntunen, United Kingdom O-74 Survival time and differences between dementia with Lewy bodies and Alzheimer's disease following diagnosis: A meta-analysis of longitudinal studies Pinar Soyak, Turkey O-75 A longitudinal study of change in gait speed and global cognitive function, and associations to incident dementia in persons aged 85 years and over Jerry Chin, Sweden O-76 Effect of a multicomponent exercise programme (VIVIFRAL) on functional capacity and cognitive function in frail community elders with cognitive decline Preliminary analysis of a multicentre randomised controlled trial Ismao Marin, Spain O-77 A Comparison Of The AMTS And MoCA In Older Patients In The Acute Hospital James Wells, United Kingdom O-78 Acute confusional syndrome after reparative surgery of proximal femur fracture in elderly patients Inocencio Landolt, Spain O-79 Serum vitamin D and cognitive gait control: The French MERE cohort study Guillaume David, France O-80 Early-Life Financial Strain, Social Engagement and Old Age Depressive Symptoms: a Population-based Study Federico Tollo, Sweden	ORAL COMMUNICATIONS 01-40 PRE AND POST OPERATIVE CARE Chairs: Lúcia Marques, Portugal, Mark A. Vassallo, Malta O-81 Designing a Geriatric Liaison Service for older emergency general surgical patients – aims and initial experience: Hui Shan Tay, United Kingdom O-82 Preliminary results of the first middle east orthogeriatric unit: the Qatar experience Francisco José Frazzara-Santabárbara, Qatar O-83 Effects of Preoperative Anesthetics Use on Hip Fracture Treatment and Outcomes Esa Järven, Finland O-84 Can a hip call lead to rapid surgical treatment of hip fractures? Mette Aabovsen, Denmark O-85 Assessment of Uro-Geriatrics Liaison Service in a Busy Urology Department Sara Fariña Domínguez, United Kingdom O-86 Frailty assessment in elective gastrointestinal oncogeriatric surgery: predictors of one-year mortality and functional status Chiara Gianviti, Italy O-87 From me needs knee to knee needs me Transition of perioperative care for people that chose to have total knee replacement surgery. Rotem Telem, Israel O-88 Reduction of lifestyle restrictions after total hip replacement: Putting Evidence Based Practice into practice through VBHC based continuous improvement Jolmer Jager, Netherlands O-89 Small bowel tumours in the elderly: 10-year experience Miguel Albano, Portugal	
12:00 13:30	NOT TO BE USED	NOT TO BE USED	ABBOTT LUNCH SESSION COPD, MALNUTRITION AND SARCOPENIA: BREAKING THE CYCLE TO IMPROVE PATIENT OUTCOMES Welcome & introductions Carole Glencorse, United Kingdom 1. Muscle wasting and dysfunction in copd patients Nicolaas Deutz, USA 2. From assessment to evidence based action in copd patients with malnutrition and sarcopenia: an interactive clinical case Christophe Graf, Switzerland Panel discussion	FRESENIUS KABI LUNCH SESSION OPTIMISING SARCOPENIA MANAGEMENT: PROTEIN INTAKE AND BEYOND Chairs: Cornel Sieber, Switzerland 1. Simple steps to screen and assess for sarcopenia Cornel Sieber, Switzerland 2. Nutrition & sarcopenia: how to effectively combat age related muscle deterioration Jurgen Bauer, Germany 3. Protein and amino acids: latest evidence on muscle anabolism Philip Atherton, United Kingdom	PFIZER LUNCH SESSION The Burden and Consequences of Pneumonia in Older Adults: The Rationale for Protection Chairs: Bulent Taysi, Turkey, Stefania Maggi, Italy 1. Chronic Diseases in Older Adults: Compounding Risk Hartmut Lode, Germany 2. The Impact and Consequences of Pneumonia in Older Adults Stefania Maggi, Italy 3. Evaluating Direct Protection Against Pneumococcal Disease in Older Adults: Real-World Effectiveness Serhat Unal, Turkey Question and Answer Session, Bulent Taysi, Turkey	NOT TO BE USED	NOT TO BE USED	EAMA workshop How to assess correctly... -physical performance Bulent Saka, Turkey -cognitive performance Thomas Jackson, United Kingdom
13:30 14:15	Presidential keynote lecture 21st century geriatric medicine for 21st century populations Finbarr Martin, United Kingdom							
14:15 14:30	Best Abstract Awards							
14:30 16:00	GERIATRIC UROLOGY - EBM CAPITA SELECTA Chairs: Claudio Pedone, Italy, Antoine Vella, Malta 1. Optimal pharmacological approach to patients with LUTS Chris Chapple, United Kingdom 2. Personalized approach to older patients with prostate cancer Luis Martinez-Pineiro, Spain 3. Personalized approach to older patients with renal tumors Piotr Chłosta, Poland	DISCHARGE PLANNING Chairs: Kiyoka Kinugawa-Bourron, France, Andrei Iltiski, Belarus 1. Factors predicting a successful post-discharge outcome for octogenarians Zyta Beata Wojszel, Poland 2. Hospital discharge planning and continuity of care for older people: does transitional care model reduce burden of treatment and hospital readmission? Cédric Mabire, Switzerland 3. Transitional care: the essential bridge between hospital and home for older persons Bianca Buurman, The Netherlands	HOW TO APPLY A COMPREHENSIVE GERIATRIC ASSESSMENT IN... Chairs: Nele Van Den Noortgate, Belgium, Dolores Sanchez Rodriguez, Spain 1. Oncologic patients Karolina Piotrowicz, Poland 2. Patients with cognitive impairment Aline Mendes, Switzerland 3. Patients with physical disability Sofia Duque, Portugal	ORTHOGERIATRICS - EBM CAPITA SELECTA Chairs: Martin Finbarr, United Kingdom, Jesper Ryt, Denmark 1. Predictors of mortality in orthogeriatric care Rocio Menendez Colino, Spain 2. Multidisciplinary geriatric rehabilitation of older patients with hip fracture Wilco Achterberg, The Netherlands 3. Monitoring of physical activity after hip fracture by body worn sensors Kristin Taraldsen, Norway	JOINT SYMPOSIUM EUGMS/ESPRM - EBM approaches of Physical and rehabilitation medicine in older people Chairs: Eletheria Antoniadou, Greece, Tomasz Kostka, Poland 1. Maintaining function - PRM and osteoarthritis Michael Quittan, Austria 2. PRM approaches to treat pain in older persons Aydan Oral, Turkey 3. Personalizing subacute hip fracture rehabilitation for patients with cognitive impairment or high levels of fear of falling Clemens Becker, Germany	SUBMITTED SYMPOSIUM - FRAILTY AND RESILIENCE – SYMPOSIUM OF THE EUGMS SPECIAL INTEREST GROUP ON FRAILTY AND RESILIENCE IN OLDER PERSONS Chairs: René Meis, The Netherlands, Aisling O'Halloran, Ireland 1. Frailty and resilience – the convergence of two concepts Matteo Cesari, Italy 2. Frailty in clinical practice and public health Andrew Clegg, United Kingdom 3. Clinical and research relevance of resilience Marcel GM Olde Rikkert, The Netherlands	SUBMITTED SYMPOSIUM - SARCOPENIA – FROM RESEARCH TO CLINICAL PRACTICE Chairs: Charlotte Suetta, Denmark, Marco Narici, Italy 1. Impact of Ageing and Inactivity on the Neuromuscular Junction Marco Narici, Italy 2. Are we ready to implement the Sarcopenia diagnose – results from Copenhagen Sarcopenia Study Charlotte Suetta, Denmark 3. Muscle power – relation to physical function and frailty Julian Alcazar, Spain	
16:00 16:15	BREAK							
16:15 17:30	Closing Ceremony Suzy Hope, United Kingdom Nguyen Sylvain, Switzerland Anastasia Koutsouri, Greece
